

Retirement like this won't happen by itself.

It takes a **plan.**

Scarborough can help you answer important questions like:

- How much retirement income will you need?
- How will inflation affect your income?
- Should you take a lump sum or monthly payments?
- How should you diversify your investments?
- What should you do with your 401(k) savings?

The use of diversification as part of your investment strategy neither assures nor guarantees better performance and cannot protect against loss in declining markets.
